

## ENGLISH

### How to use:

**Power on/off:** Press the fire button 5 times in quick succession to turn it on, the indicator lights will flash 5 times. Press the fire button in the same way, it will be turned off.

**Soak the ATOPACK coil:** Take out the ATOPACK coil and drip a few drops of e-liquid in it.

**E-liquid filling:** Inject the e-liquid into the ellipse filling hole directly. You can refer to the capacity line on the cartridge. Note: Please don't fill too much to avoid overflow.

**Vaping:** Insert the ATOPACK coil into the cartridge. Put the cartridge into the battery. Press the button to inhale, release to exhale.

**ATOPACK coil replacement:** Pull out the cartridge and take out the ATOPACK coil to replace or clean. (Note: Please do not wash the atomizer head with water. Simply scrub it with clean dry cloth.)

**Charging:** Simply charge the ATOPACK PENGUIN by connecting it with a computer or a wall adapter via USB cable. When it's fully charged, the indicator lights will stay lit for 10 seconds and then go out.

### Functions:

#### Short circuit protection:

1. When short circuit occurs before working, the indicator light blinks 5 times and the device turns off itself.
2. When short circuit occurs while working, the indicator light blinks 3 times and output cuts off automatically.

**Atomizer protection:** The ATOPACK PENGUIN has a 10 seconds run time protection. The light will flash 10 times if the fire button is pressed for more than 10 seconds.

#### Low voltage protection:

When the battery voltage drops lower than 3.3V, the button light will blink 40 times and the device will power off. Simply charge it to turn on.

#### Resistance detection:

1. When the resistance at the output end is >3ohm, the indicator light will blink slowly if you press the fire button.
2. When the resistance at the output end is <0.15ohm, the indicator light will blink quickly for 5 times, suggesting the ohm is too low or potential short circuit.

#### Battery indication:

The indicator light will show the battery life as follows:

#### Battery using:

1. Please use correct charging equipment by reputable suppliers.
2. Please choose good batteries from reputable companies.
3. Please put the batteries on a hard surface when charging.
4. Please turn off the device when it is not in use.
5. Please use dry cloth to clean the battery and its terminals when needed.
6. Don't use batteries with torn casings.
7. Don't leave the charging batteries unattended.
8. Don't expose the battery to extreme heat, cold or direct sunlight.
9. Keep away from water or any liquids.

#### Precautions:

1. Don't use the device in stormy weather or dust condition.
2. Connect the USB port and charger properly. Unplug the charger when the charging is completed.
3. Don't put the device in your pocket or handbag directly; don't mix it with coins, jewelry or other hard objects.
4. Please use recommended charger with charging current of 5V/1A.
5. The charger and battery may heat when charging, keep away from flammable gas, liquid or other materials.

#### Warning:

1. Keep out of reach of children.
2. This device is not recommended for use by people under 18 or non-smokers.
3. This device is not suitable for use by pregnant or breast-feeding women.
4. This device is not suitable for use by people who're allergic or sensitive to nicotine or those who can't use nicotine products for health reasons.
5. This device is not suitable for use by people who has cardiovascular disease or respiratory disease.
6. This device is not suitable for use by people who diseases like cardiac dysfunction, high blood pressure or diabetes.

#### Attention:

1. Only have your device repaired by Joyetech. Do not attempt to repair the unit by yourself as damage or personal injury may occur.
2. Do not leave the device in high temperatures or damp conditions, as this may damage the device. The appropriate operation temperature is within 0℃ to 45℃ while charging and -10℃ to 60℃ while in use.
3. Do not attempt to combine the device with parts of other brands of e-cigarettes. Joyetech will not take responsibility and your warranty will be void if any damage caused by this way.
